1 Introduction

This publication presents statistics on labour market policy (LMP) interventions implemented by EU Member States and Norway in 2017, together with time-series for key variables covering the period 2005-2017.

The paper is divided in four chapters. Chapter 1 is introductory. Chapters 2 and 3 deal respectively with data on expenditure and participants in LMP interventions and include tables of indicators used for monitoring the EU Employment Guidelines. Chapter 4 includes tables of external and reference data that help to put the LMP data into context.

All data and other information in this publication are presented in accordance with the LMP Methodology 2018¹ (see point 1.3 below).

1.1 Scope of LMP statistics and key concepts

LMP statistics cover labour market interventions which are public interventions in the labour market aimed at reaching its efficient functioning and correcting disequilibria. LMP interventions are distinguished from other general employment policy interventions in that they act selectively to favour particular groups in the labour market. The primary target groups in most countries are those people who are registered as unemployed by national Public Employment Services (PES) or who are currently employed but at risk of involuntary job loss due to difficult economic circumstances for their employer. However, policy objectives at European and national levels are increasingly focused not only on these groups but on a wider range of people facing disadvantages and barriers that may prevent them from joining or re-joining the labour force – for example, women re-entering work after a family break, young people looking for their first job, older workers and disabled workers. Therefore, people currently considered as inactive but who would like to enter the labour market are also treated as an important LMP target group.

National interventions are classified according to a single scheme in order to ensure that the information on LMP interventions undertaken across Europe is presented in a way that is as consistent and comparable as possible. LMP interventions are classified by type of action, which refers to the way in which an intervention acts to achieve its objectives. The classification identifies three broad types of intervention – services, measures and supports – which are subdivided into 8 categories². LMP services cover all services and activities of the Public Employment Services (PES) together with any other publicly funded

services for jobseekers. Services include the provision of information and guidance about jobs, training and other opportunities that are available and advice on how to get a job (e.g. assistance with preparing CVs, interview techniques, etc.). The classification scheme includes one category of LMP services:

- Labour market services (cat. 1)

LMP measures cover interventions that aim to provide people with new skills or experience of work in order to improve their employability or that encourage employers to create new jobs and take on unemployed people and other target groups. Measures include various forms of intervention that "activate" the unemployed and other groups by obliging them to participate in some form of activity in addition to basic job search, with the aim of improving their chances of finding regular employment afterwards. They are mostly short-term and temporary actions but on-going support for jobs that would otherwise not be sustained in the regular labour market is also covered. The classification scheme identifies five categories of LMP measures²:

- Training (cat. 2)
- Employment incentives (cat. 4)
- Supported employment and rehabilitation (cat. 5)
- Direct job creation (cat. 6)
- Start-up incentives (cat. 7)

LMP supports cover financial assistance that aims to compensate individuals for loss of wage or salary and to support them during job-search (i.e. mostly unemployment benefits) or which facilitates early retirement for labour market reasons. The classification scheme includes two categories of LMP supports:

- Out-of-work income maintenance and support (cat. 8)
- Early retirement (cat. 9)

For each intervention, data on expenditure and participants are collected. Expenditure is broken down according to a two tier scheme, which distinguishes firstly the direct recipient of the transfers and then the type of expenditure involved. The numbers of participants in LMP interventions are recorded using three observations: stock, entrants and exits. Stock data (annual average) refer to the average number of persons participating in an intervention at a given moment during the year and are usually calculated from the administrative data as an average of the stock at the end of each month. The annual average stock can also be interpreted as the number of person-years of participation in an intervention. Flow data describe the number of people joining (entrants) or leaving an intervention (exits) during

the year. Each participation is counted so that a given individual may be counted more than once in both entrants and exits data.

1.2 EU employment policy and LMP indicators

LMP statistics are one of the key data sources used for monitoring the EU Employment Guidelines through the Europe 2020 Joint Assessment Framework (JAF)³. The JAF is an indicator-based assessment system developed and used by the European Commission (Directorate General for Employment, Social Affairs and Inclusion) and the Employment Committee (EMCO). Organised in 12 Policy areas (PA), the JAF includes a series of indicators used to monitor progress towards EU headline targets and related national targets in relation to the implementation of the Employment Guidelines. In each policy area, indicators are categorised as overall indicators, sub-indicators, and context indicators. The logic of the JAF is that, in principle, under each policy area the sub- and context indicators should reflect factors that explain and drive the outcome of the overall indicator.

Six indicators related to LMP fall within policy area 3 - Active labour market policies (PA3):

- PA3.S1 (sub-indicator) Expenditure on ALMP per person wanting to work (see Table 2.1.4): Expenditure on LMP category 1.1.2 (Individual case management)⁴ and LMP categories 2-7 divided by the number of persons wanting to work (ILO unemployed plus labour reserve).
- PA3.S2 (sub-indicator) Expenditure on ALMP as a % GDP (see Table 2.1.3): Expenditure on LMP category 1.1.2 (Individual case management)⁴ and LMP categories 2-7 as a percentage of GDP.
- PA3.S3 (sub-indicator) Activation (see Tables 3.3.1 – 3.3.3): Stock of participants in regular activation measures (LMP categories 2-7) divided by the number of persons wanting to work (ILO unemployed plus labour reserve).
- PA3.C1 (context indicator) Activation of registered unemployed (see Tables 3.3.4 – 3.3.6): Stock of participants in regular activation measures (LMP categories 2-7) that were previously registered unemployed divided by the stock of registered unemployed plus the stock of participants in regular activation measures that were previously registered unemployed and whose unemployment spell is broken by participation in a regular activation measure.

- PA3.C4 (context indicator) Activation of long-term (registered) unemployed (see Tables 3.3.7 – 3.3.9): Stock of participants in regular activation measures (LMP categories 2-7) that were previously long-term registered unemployed divided by the stock of long-term registered unemployed plus the stock of participants in regular activation measures that were previously long-term registered unemployed and whose unemployment spell is broken by participation in a regular activation measure (long-term unemployed = 12+ months).

- PA3.C6 (context indicator) Timely activation (see Tables 3.3.10 – 3.3.12): The proportion of entrants in regular activation measures (LMP categories 2-7) or assisted activation programmes (LMP sub-category 1.1.2) taken up by persons not yet long-term unemployed (Target value 100% = full compliance): $(A-B)/A \%$ where A = Total entrants, B = Long-term unemployed entrants (12+ months).

Two further indicators related to LMP fall within policy area 4 - Adequate and employment oriented social security systems (PA4):

- PA4.1.S1 (sub-indicator) Expenditure on LMP supports per person wanting to work (see Table 2.1.4): Expenditure on LMP category 8 (Out of work income maintenance and support) divided by the number of persons wanting to work (ILO unemployed plus labour reserve).

- PA4.1.S2 (sub-indicator) Expenditure on LMP supports as % of GDP (see Table 2.1.3): Expenditure on LMP category 8 (Out of work income maintenance and support) as a percentage of GDP.

1.3 Guiding remarks on data

Source of data and timeliness

Unless otherwise specified, all data presented in this publication were extracted from the LMP database⁵ on 28th September 2019. Data are collected annually from administrative sources in each country. The publication includes tables showing the original source of data on expenditure and participants for each intervention (see Tables 5.5 and 5.6).

Source codes in the form of internet hyperlinks are included after each table and figure in this publication to help readers access easily the most recent data available from the DG EMPL website.

LMP Methodology

The LMP data collection is underpinned by a comprehensive methodology. It defines the scope of the data collection, the statistical unit and coverage, describes the classification system, and gives precise guidelines on the data to be provided. Users of LMP data are recommended to refer to this methodology in order to facilitate interpretation of the data provided in this publication. The methodology is available from the DG EMPL website¹. This publication includes the questionnaire used in the LMP data collections (see Table 5.1), the classification scheme by type of action (see Table 5.2) and breakdown by type of expenditure (see Table 5.3).

The LMP methodology is also used by the OECD. Data on LMP expenditure and participants published by the OECD in "Employment Outlook" for the EU countries and Norway are collected and carefully validated annually by the European Commission's Directorate-General for Employment, Social affairs and Inclusion before being sent, together with all related metadata, to the OECD. The only divergence between the two databases is in category 1 (Labour market services), where OECD prefers to maintain a different coverage and has, for some countries, either supplemented or excluded parts of the data.

Qualitative data

In addition to the quantitative data on expenditure and participants presented here, the LMP database includes valuable qualitative information describing each intervention, how it works, the main target groups, etc. These descriptions help to put the quantitative data into context and can be extremely useful for researchers. These qualitative data are made available in an online database on the DG EMPL website⁶ and are also compiled into a series of "Labour market policy statistics: Qualitative Reports" produced as separate volumes for each country/year⁷. This publication includes a table expanding on any abbreviations used in intervention names and explanatory notes to the quantitative data reported by each country (see Table 5.4).

Coverage

In accordance with the LMP methodology, the data presented in this publication should cover all LMP interventions in each country including those of autonomous regions, which may be significant. There are, however, some known exceptions:

Germany: The Länder (regional authorities) carry out some important LMP activities independently of the

federal actions but insufficient data are available to report on these in any detail. However, many of the activities of the Länder are supported by the ESF (European Social Fund) and the LMP data for 2000-2006 include a single entry (DE-84) covering this expenditure and the related participants. Unfortunately changes to reporting procedures for the 2007-2013 ESF funding period mean that the data on ESF expenditure relevant to LMP in Germany are no longer available. The data for Germany for 2007-2017 are therefore missing the expenditure and participants related to LMP activities of the Länder. In 2006 the ESF support for these actions accounted for 7.4% of the expenditure on LMP measures (categories 2-7) in Germany and 29.6% of the participants.

Spain: Data for reference years prior to 2013 do not provide complete coverage of the activities of municipalities and do not cover all of the autonomous regions.

Italy: Data for reference years 2016-2017 are incomplete because data for a number of ESF funded interventions were not available at the time of the data collection.

United Kingdom: Data for reference years 2011 - 2017 were not provided.

Aggregates of expenditure and participants

Aggregates of expenditure data are only provided when values are available (or known to be not significant) for all constituent items.

However, participant data are generally less complete and in order to increase the number of participant aggregates that can be disseminated, the value of a participant aggregate is shown provided that constituent data are complete for at least 80% of the associated expenditure (completion indicator $\geq 80\%$). All aggregates of participants based on data which is less than 95% complete are flagged as "u" to alert users that the data are not fully reliable (i.e. may be understated by up to 20%) and this flag always takes precedence over any other flag that might be applicable.

EU totals

EU totals are completed only when data are available for all countries or when Cyprus, Luxembourg and Malta are the only countries with incomplete data. If data for a country is missing for one year then EU totals may be completed using data from the previous year for that country.

The following aggregations should not be made for methodological reasons:

- Participants in category 8 should never be added to those in categories 2-7.
- Participants in category 1 should never be added with any other category.

Double counting may occur legitimately when a person participates in more than one intervention at the same time or is counted in two components of a mixed intervention – for example when training allowances are paid independently from the provision of training services. All known cases of double counting are taken into account by appropriate adjustments, which are shown in the detailed tables of participant data (section 3.4).

Flags

LMP data are flagged at the intervention level. The following flags may be applied:

- b Break in series
- e Estimated data
- n Not significant
- p Provisional data
- u Unreliable data (see section on aggregates of participants above)

When data are aggregated (e.g. to category totals or to EU aggregates), the various constituents of the aggregate may have different flags but only one can be applied to the final value. The following rules are applied to determine the flag (if any) to be applied to aggregates. Firstly, the flag most applicable to an aggregate is considered to be the one that applies (at detailed level) to the highest share of the aggregate value.

Footnotes:

1. <http://ec.europa.eu/social/main.jsp?catId=738&langId=en&pubId=8126&furtherPubs=yes>

2. Note that since the 2013 LMP methodology was introduced category 3 has been merged into category 4 (as sub-category 4.3) and is no longer used as a top-level category

3. <http://ec.europa.eu/social/BlobServlet?docId=6440&langId=en>

4. At the present time data for LMP category 1 are not fully broken down by sub-category for all countries. Therefore the indicator can only be calculated for categories 2-7.

5. <https://webgate.ec.europa.eu/empl/redisstat/databrowser/explore/all/lmp?display=card&sort=category>

6. <http://ec.europa.eu/social/main.jsp?catId=1143&intPageId=3227&langId=en>

7. <https://ec.europa.eu/social/ajax/lmpDocuments.jsp?langId=en&docType=3>

8. <http://ec.europa.eu/eurostat/web/lfs/overview>

Secondly, a flag is only applied to an aggregate if it affects more than 10% of the total value.

Intervention names

The names of all LMP interventions are shown here in English only. However, for research purposes it may also be helpful to know the name of the intervention in the national language. An inventory of intervention names in both English and national language is included in the LMP Qualitative Reports which are published separately for each country.

LMP expenditure at constant price levels - deflator

The price index for household and NPISH (non-profit institutions serving households) final consumption (2010=100) was used as deflator (see table 4.1.2, source: National Accounts).

Persons wanting to work – definition

Persons wanting to work are defined as the unemployed plus the labour reserve. The unemployed according to the ILO definition are persons without work, currently available for work and actively seeking work. The labour reserve covers inactive persons who want to work but are either not actively seeking work or are not immediately available for work, i.e. it is a subset of all inactive persons (persons neither employed nor unemployed). Data are taken from the EU Labour Force Survey (EU LFS)⁸.

Notes

- 1 BE-1 includes expenditure of BE-78.
- 2 Data for Forem (Wallonia) is included under BE-101 and BE-30. The increase for Actiris is likely to be linked to its new competences following the 6th State Reform.
- 3 Includes ESF contribution.
- 4 BE-54 includes expenditure of BE-65.
- 5 The majority of participants receive unemployment benefits which are reported under category 8.
- 6 BE-77 includes expenditure of BE-159.
- 7 Beneficiaries of this regional training programme continue to receive unemployment benefits which are reported under BE-43 (category 2).
- 8 Beneficiaries continue to receive unemployment benefits which are reported under BE-43 (category 2).
- 9 These are unemployment benefits paid to beneficiaries of regional training programmes (BE-40, 41, 42 and 44).
- 10 Some participants may continue to receive unemployment benefits which are reported under category 8.
- 11 Intervention coming to an end.
- 12 Participants may continue to receive a monthly integration allowance which is not included here but in BE-89.

Notes

- 1 The figures on expenditures includes the budget of the actual PES centres which are under the control of the Danish local authorities.
- 2 The financing is (partly) covered by the State/Central government accounts
- 3 Includes training fees and the wages of both workers involved in the job rotation.
- 4 The breakdown of expenditure by type of benefit (full-time, part-time or partial) is not known so all expenditure is shown as full-time benefits, which are the most important.
- 5 Data cover only recipients of early retirement pay coming directly from unemployment, which corresponds to around 21% of all recipients.

Notes

- 1 Some beneficiaries continue to receive unemployment benefits: the corresponding amount is reported in ES-5 (cat 8).
- 2 Includes ESF contribution.
- 3 The increase of expenditure in 2017 is due to 2 new programmes funded by the ESF implemented in Comunitat Valenciana.
- 4 Total expenditure covers both transfers to individuals and transfers to service providers - the breakdown is not available.
- 5 Data for 2017 include additional data on reduced social contributions that are not covered in previous years.
- 6 ES-18 includes expenditure of ES-19 (Promotion of agricultural employment in Andalucía, Extremadura and under-developed rural areas).
- 7 ES-21 includes expenditure of ES-24 and ES-45 (on Promotion of local employment initiatives). Data for 2017 include additional data on reduced social contributions that are not covered in previous years. Includes ESF contribution.
- 8 Includes unemployment benefits received by participants in training interventions in category 2.

 Notes

- 1 Includes ESF contribution.
- 2 The intervention is coming to an end.
- 3 Expenditure is already included under FR-102 (Pôle emploi).
- 4 The remuneration of traineeships organised by the regions (FR-85) is included under FR-18.
- 5 The decrease in expenditure is due to the fact that the management of this measure has been transferred to the regions (but regional data are not available).
- 6 Some participants may continue to receive unemployment benefits (reported under category 8).
- 7 Data refer to 2016 (the management of this measure has been transferred to the regions but regional data are not available).
- 8 The decrease of expenditure is explained by the fact that the regions did not entirely compensate the intervention of the central State during the first years of decentralisation.
- 9 A small share (1.5%) of expenditure reported in FR-3 is in fact paid to unemployed people creating their own business (FR-38).

Notes

- 1 Expenditure is estimated on the basis of the CES management's assessment of the person-hours needed to perform the service relative to the total person-hours of CES staff.
- 2 The expenditure is reported on a cash basis.
- 3 HR-96 consolidates HR-10, 26, 27, 28, 64, 65, 80 and 83.
- 4 HR-97 consolidates HR-12, 60, 81 and 84.
- 5 HR-98 consolidates HR-82 and 94.
- 6 HR-99 consolidates HR-14 and 15.
- 7 Includes ESF contribution.
- 8 As only total expenditure on relocation and travel expenses is available in accounting reports, an estimate is provided.
- 9 The amount is estimated using 2016 data.
- 10 HR-95 consolidates HR-17, 18, 19, 20, 21, 30, 67, 68 and 69.
- 11 HR-100 consolidates HR-22, 23, 71, 72, 73, 74, 75, 77, 85, 86, 87, 88 and 89.

Notes

- 1 Expenditure for MT-24, covers the costs of the national PES.
- 2 Includes ESF contribution.
- 3 There are instances where participants continue to receive Unemployment Benefits (reported under intervention 28).
- 4 In cases where participants opt to continue receiving Unemployment Benefits or Unemployment Assistance instead of the cash benefit offered by ETC, such expenditure is reported under interventions 28 or 29 respectively.
- 5 In cases where the subsistence is less than the Unemployment Benefit and the Social Security Department issues a separate payment to cover the short-fall, such expenditure is reported under interventions 28
- 6 Expenditure estimated as the national minimum weekly wage multiplied by the number of weeks each participant spent in the scheme during the year.

Flags: : not available; :n not significant; - not applicable; b break in series; e estimated value; p provisional data

Notes

- 1 Breakdown by type of expenditure is based on a survey covering about 40% of all municipalities in the Netherlands, representing 70% of the total expenditure.
- 2 From 2006 expenditure on the administration of the TW for WW-recipients is counted under expenditure for the administration of WW.
- 3 Unemployment benefits during participation in individual case-management and training have been estimated on the basis of the (estimated) number of participants and an average annual Abw/WWB-benefit per person.
- 4 Unemployment benefits during participation in individual case-management and training have been estimated on the basis of the (estimated) number of participants and an average annual WW-benefit per person.
- 5 Breakdown is unavailable so all expenditure is allocated to transfer to service providers.
- 6 Expenditure restricted to unemployed people already receiving unemployment benefits (NL-31 WW).

Notes

- 1 Share of operational costs of the PES based on monitoring of staff time-use.
- 2 Expenditure of FI-56 (sub-category 1.1.1) includes expenditure which used to be reported under FI-51 (sub-category 1.2.2).
- 3 Includes ESF contribution.
- 4 Expenditure includes only subsidies paid by the Ministry of Economic Affairs and Employment to facilitate the recruitment of unemployed persons as apprentices. Intervention coming to an end.
- 5 Expenditure refers to persons on leave and includes both income support (70% of unemployment benefit entitlement) and training supplements where appropriate.
- 6 Data represent an estimate of public funding for sheltered workshops. Income from business activity, which accounts for more than half of revenue, is excluded.
- 7 Expenditure includes rehabilitation allowances and the costs of different rehabilitation activities.
- 8 Municipalities' other costs i.e. transfers to individuals have not been reported for earlier years.
- 9 Rules of the level of the payment changed from de minimis to the level of basic unemployment benefit.
- 10 Unemployment benefits paid to recipients participating in measures are not included here, they are reported under the appropriate measures (under categories 2-7).

Notes

- 1 Data by duration of unemployment refers to the duration of registration as either a registered jobseekers or registered unemployed.
- 2 The breakdown of recipients by type of benefit (full-time, part-time or partial) is not known so all are allocated to full-time benefits, which are the most important.
- 3 Data cover only recipients of early retirement pay coming directly from unemployment, which corresponds to around 40% of all recipients.

Notes

1 The increase of participants in 2017 is due to 2 new programmes funded by the ESF implemented in Comunitat Valenciana.

2 Data for 2017 include additional data on reduced social contributions that are not covered in previous years.

3 ES-18 includes participants of ES-19 (Promotion of agricultural employment in Andalucía, Extremadura and under-developed rural areas).

4 ES-21 includes participants of ES-24 and ES-45 (on Promotion of local employment initiatives). Data for 2017 include additional data on reduced social contributions that are not covered in previous years.

5 Includes participants of ES-8, ES-35 and ES-72 who continue to receive unemployment benefits.

Notes

- 1 The intervention is coming to an end.
- 2 Participants in component 8.1.1 are already reported under FR-1.
- 3 Stock: end-year figure.
- 4 Participants of FR-133 are only reported under FR-116 (R2).
- 5 Participants of FR-134 and 136 are also reported under FR-116 (R2).
- 6 Since 1st January 2017, all Youth Guarantees (FR-130) are carried out in the context of FR-138 (PACEA). YG signed before that date are not taking place within the PACEA and are therefore not included in the double counting entry.
- 7 Beneficiaries of training allowances are already counted in interventions FR-85 and FR-118.
- 8 Beneficiaries of training allowances are already counted in other training interventions (FR-70, FR-71 and FR-85).
- 9 Participants of FR-106 are included in FR-63.
- 10 Stock: average of two year-end figures.
- 11 All beneficiaries are already counted in other training measures (FR-70 and FR-71).
- 12 Double counting with FR-70, FR-71 and FR-104.
- 13 Participants of FR-11 are included in FR-118.
- 14 Some participants of FR-104 are double counted with those reported in FR-118.
- 15 Stock: start-year figure.
- 16 The decrease of participants is explained by the fact that the regions did not entirely compensate the intervention of the central State during the first years of decentralisation.
- 17 Data cover only apprenticeship contracts concluded with low-qualified youth (52.4% of all contracts) for which employers receive recruitment incentives.
- 18 Adjustment for double-counting: FR-63, FR-104, FR-106, FR-107.
- 19 Most participants are already included under other interventions in categories 4, 6, 7 or 8.
- 20 Participant data only refer to young people who are the main target of this intervention (older people are not included here).
- 21 Double-counting with FR-38.
- 22 All participants in FR-121 are already reported in FR-38.

Notes

- 1 Participants are reported separately as reference data.
- 2 Data refer to 2015.
- 3 Data on participants by characteristics are not available.
- 4 The estimate of the stock and the distribution by age, sex and duration of unemployment is based on 2015 data and the total of entrants in 2016.
- 5 HR-96 consolidates HR-10, 26, 27, 28, 64, 65, 80 and 83.
- 6 HR-97 consolidates HR-12, 60, 81 and 84.
- 7 HR-98 consolidates HR-82 and 94.
- 8 HR-99 consolidates HR-14 and 15.
- 9 The estimate of the stock and the distribution by age, sex and duration of unemployment is based on 2015 data and the total of entrants in 2017.
- 10 The number of entrants/exits by sex and age is estimated using the distribution in 2015.
- 11 The estimate of the entrants, the stock and the distribution by age, sex and duration of unemployment is based on 2015 and 2016 data.
- 12 The distribution by sex, age and duration of unemployment is estimated using the 2015 data.
- 13 HR-95 consolidates HR-17, 18, 19, 20, 21, 30, 67, 68 and 69.
- 14 The estimate of duration of unemployment is based on 2015 data.
- 15 HR-100 consolidates HR-22, 23, 71, 72, 73, 74, 75, 77, 85, 86, 87, 88 and 89.
- 16 Stock is not relevant as compensation is a lump-sum payment. Entrants = Exists.

8-9 Total LMP supports (categories 8-9)	293 537	:	:	6 431	23 767	16 059 p	148 298	:	:		

Flags: : not available; :n not significant; - not applicable; b break in time series; e estimated; p provisional; u unreliable or uncertain: participant data complete for interventions covering >=80% but <95% of expenditure

Notes

- 1 Data includes distinct activities: placement and technical supports. In placement, the unemployed become employed, In technical supports the status does not change. ↵
- 2 Intervention coming to an end.
- 3 Incomplete data.
- 4 The data are not available.
- 5 Intervention not applied in 2017.
- 6 Missing data can be relevant.
- 7 A small number of participants cannot be accurately allocated between interventions PT-29, 31 and 37.
- 8 Participants by intervention may therefore be slightly under or over-stated but the total for the three is correct.
- 9 A small number of participants cannot be accurately allocated between interventions 29, 31 and 37. Unemployment by duration not available.
- 10 Data do not include 11 034 beneficiaries because breakdown is not available.
- 11 Participants cannot be compared with expenditure, because participants refer to both Portugal mainland and Madeira while expenditure comprises only data from Madeira.
- 12 Data on exits are provisional for 3 years because participation can be suspended during the first 3 years after entrance.
- 13 Stock = total beneficiaries in the year.

Getting in touch with the EU

In person

All over the European Union there are hundreds of Europe Direct Information Centres. You can find the address of the centre nearest you at: <http://europa.eu/contact>

On the phone or by e-mail

Europe Direct is a service that answers your questions about the European Union. You can contact this service

- by freephone: 00 800 6 7 8 9 10 11 (certain operators may charge for these calls),
- at the following standard number: +32 22999696 or
- by electronic mail via: <http://europa.eu/contact>

Finding information about the EU

Online

Information about the European Union in all the official languages of the EU is available on the Europa website at: <http://europa.eu>

EU Publications

You can download or order free and priced EU publications from EU Bookshop at: <http://bookshop.europa.eu>. Multiple copies of free publications may be obtained by contacting Europe Direct or your local information centre (see <http://europa.eu/contact>)

EU law and related documents

For access to legal information from the EU, including all EU law since 1951 in all the official language versions, go to EUR-Lex at: <http://eur-lex.europa.eu>

Open data from the EU

The EU Open Data Portal (<http://data.europa.eu/euodp/en/data>) provides access to datasets from the EU. Data can be downloaded and reused for free, both for commercial and non-commercial purposes.
